

Cars24 Acceptable Use of IT Systems Policy

Policy Effective Date: October 4, 2025

Policy Revision Date: N/A

1. Introduction and Scope

This policy governs the acceptable use of all **Cars24** IT resources and systems, including but not limited to computers, laptops, mobile devices, networks, internet access, software applications, email systems, and communication platforms (collectively, "IT Assets").

This policy applies to all employees, contractors, interns, and temporary staff ("Users") who access or use Cars24 IT Assets, regardless of location.

2. General Principles of Use

IT Assets are provided primarily to assist Users in performing their job duties and conducting official Cars24 business.

- **Professionalism:** All use of IT Assets must be professional and consistent with Cars24's Code of Conduct and business objectives.
- **Security:** Users are responsible for taking reasonable precautions to protect IT Assets from unauthorized access, damage, or loss.
- **Limited Personal Use:** Incidental and occasional personal use is permitted, provided it is reasonable, does not interfere with job duties, does not consume excessive bandwidth or storage, and does not violate any other section of this policy.

3. Prohibited Activities

The following actions are strictly prohibited when using Cars24 IT Assets:

3.1 Unlawful or Unauthorized Activity

- Downloading, transmitting, or storing illegal materials (e.g., child pornography, pirated software).
- Attempting to bypass security controls, gain unauthorized access to any system, or engaging in "hacking."
- Installing unapproved software, applications, or external hardware (e.g., unauthorized USB drives).

3.2 Harmful or Disruptive Activity

- Sending, forwarding, or posting harassing, threatening, defamatory, or discriminatory messages or content.

- Introducing malicious software, viruses, worms, or other harmful code into the network.
- Intentionally flooding the network or engaging in activity that disrupts the work of others.
- Using IT Assets for commercial purposes unrelated to Cars24 business (e.g., operating a personal business).

3.3 Confidentiality and Data Security

- Sharing passwords, user IDs, or access credentials with anyone, including colleagues or family.
- Transmitting or storing Cars24 confidential, proprietary, or customer data (including vehicle, financial, or personal information) through unauthorized personal email accounts or cloud services.
- Storing highly sensitive data on unencrypted devices (e.g., laptops, mobile phones) without explicit IT approval.

4. Email and Internet Use

- **Monitoring Notice:** Users should have **no expectation of privacy** when using Cars24 IT Assets. Cars24 reserves the right, with or without notice, to monitor, review, audit, intercept, and disclose all electronic communications and data created, received, or stored using company IT Assets.
- **Internet Use:** Access to inappropriate or offensive internet content (e.g., pornography, excessive violence) is strictly prohibited. Excessive use of social media or streaming services during work hours that impacts productivity is prohibited.
- **Email:** Email should be used for business communications. Mass, unsolicited email (spam) is prohibited.

5. Mobile Devices and Remote Access

Any personal device used to access Cars24 resources (e.g., email, internal network) must comply with the company's Bring Your Own Device (BYOD) policy (if applicable) and must allow IT to enforce security measures, such as mandatory passwords and remote wiping capability in case the device is lost or stolen.

6. Policy Enforcement

Users who violate this policy may be subject to disciplinary action, up to and including immediate termination of employment or contract, and may also face civil or criminal legal penalties.
